### *build to last* HINGE STANDARDS

The hinges and hardware are integral and an important part of every door. That is why we chose our standard hinges to be an authentic reproduction hinge made by local Portland, OR company, House of Antique Hardware, the hinge we choose has a loose pin with attached finial, slotted wood screws, and heavy duty 1/8" thick leaves - just like the originals. They're made of solid extruded brass for high strength and durability and work for thicker interior or exterior doors and are available in 9 finish options.

#### FEATURES

- Solid-Brass for Durability
- Match any Decor with Nine Finish Options
- Authentic Historic Design
- Loose-Pin for Easy Install
- Heavy-Duty Thickness

#### DIMENSIONS

4" x 4" not including ball finials.  
Leaf thickness is 1/8".
