Window Specifications

Key Terms & Conditions

The attached worksheet will ensure a timely & accurate quote that meets your needs.

The following key terms will help you identify the relevant information needed for your quote. Versatile's standard specs are listed at the bottom of the worksheet. If the standard specs work for your needs, say "standard" in the relevant column. This list of key terms goes from left to right across the worksheet. **Questions?** We're happy to help at quote@versatilewp.com.

Location: What room in the home is the window in? What direction does it face (North/South/East/West)?

Tag #: Is there a reference number from the plans or specs for this window?

Mfg/Model/Description/Handing: Briefly describe the window style. If you have a specific manufactured product in mind provide the manufacturer, model, and description. Facing the sash from inside the room does the sash swing to the left (LH) or right (RH)?

Frame Size: What are the width & height dimensions from the outside edges of the frame & from the underside of the sill to the top of the head jamb?

Mullion: If there are more than 1 window unit being factory mullied (connected) describe the width of the mullion.

Match Existing: Are there specific details that the new windows need to match in the existing windows?

Frame/Sash Material: Is the window to be made out of wood, fiberglass, or aluminum-clad wood? Versatile's standard wood species is Douglas fir while Marvin's is Ponderosa Pine.

Glass Type: Tempered or Annealed? Single pane or insulated glass? If insulated, please indicate which Low-E coating, if any, you need. Low-E 272 is most common. Other options include 366 & 180.

Lites Pattern & Profile: Are there divided lites? Simulated divided lites (SDL) or true divided lites (TDL)? How many lites wide by how many lites tall? Should the sticking profile be ovolo, ogee, square or something special?

Casing Size, Profile & Material: What type of trim, if any, do you want to come on the window? Interior, exterior, or both? What size and profile? What should it be made out of? Standard or thick sub-sill?

Finish (Ext. & Int.): Is the window being painted, stained or both (split finish)? What factory finish (bare/unfinished or primed)?

Jamb Depth: What depth of jamb is needed? Material will match the frame and sash.

Wall Type: Is the wall built using 2x4 or 2x6 framing? Or is it concrete or brick (masonry)?

Jamb Liner Color (DH Only): Marvin double-hung windows have a vinyl jamb liner. What color do you prefer (white or beige)?

Hardware: What finish color? If this is a custom window, please specify any special considerations

Screen Frame: Material & Color: Aluminum or wood framed screen. Retractable screens are also an option.

Ogee Lugs: These decorative architectural details on double hung sash are typically found on the exterior lower corners of the upper sash. They are now most commonly an applied piece made from composite.

Rev Date: When was this row last modified?

VERSATILE

WOOD PRODUCTS

Warranty

Versatile Wood Products, LLC warrants, for a period of one year from the date of delivery, that the window, cabinet and door products comprised of millwork manufactured by Versatile and insulated glass (if specified) have been manufactured in a workmanlike manner; millwork components have been manufactured to commercial “paint-ready” quality standards and insulated glass components have been manufactured to current commercial standards. For the period of the one year warranty, Versatile will (1) repair or replace, without charge, in sanded unfinished wood, millwork components found to be defective; and (2) replace, in the original or replacement millwork component, insulated glass exhibiting seal failure, and (3) install such millwork or glass in the structure where the original had been installed.

All Insulated Glass Units (IGUs) are warranted by the glass manufacturer for ten years. The glass manufacturer will supply replacement IGUs when seal failure or other manufacturing defects are present within the terms of their warranty. Versatile is not responsible for labor to remove and replace IGUs beyond year one, or to re-paint associated millwork at any time. Replacement of cracked glass is specifically excluded from any warranty coverage.

THIS WARRANTY SHALL NOT APPLY IF THE PRODUCTS HAVE NOT BEEN SEALED BY PAINT OR VARNISH ON ALL SIDES AGAINST MOISTURE PENETRATION AND EXCESSIVE DRYNESS, BOTH UPON RECEIPT BY THE PURCHASER AND ON A REASONABLE, REGULAR SCHEDULE THEREAFTER ACCORDING TO THE WEATHER EXPOSURE OF THE PRODUCTS.

Flush doors are not warranted for exterior use. Cut-downs or non-factory modifications to factory-built doors may void manufacturer warranty. Failure to follow manufacturer finishing instructions may void manufacturer warranty. Warranty (re)installation labor may be limited under circumstances.

The express warranties set forth herein are in lieu of all other warranties, express or implied, including without limitation, any warranties of merchantability or fitness for a particular purpose. All such other warranties, to the extent permitted by law, are hereby disclaimed and excluded by Versatile. Any implied warranties, which are excluded hereby, due to operation of law, are limited in duration to the duration of the express warranty provided herein.

The remedies set forth above are the sole and exclusive remedies provided hereunder, and Versatile shall not be liable for any further loss, damage or expenses, including incidental or consequential damages, directly or indirectly, arising from the purchase, installation or use of products.

Miscellaneous Issues

Delivery charge of \$50 may apply to deliveries within 20 miles. Consult our website for delivery charges outside the 20 mile radius. We reserve the right to invoice products which are left in our warehouse beyond thirty (30) days, and/or charge storage fees.
